

“

These skis are simply stunning, easy-of-use and efficient in every kind of snow. From hard snow with bumps to fresh powder, it executes everything you ask with precision, lightness, and an incredible shock absorption. It allows you to ski as smoothly as if you were on an air-cushion, and at the same time, the wood responsiveness is still present when you need it. At the end of the day, my knees and my back are even not tired! Arnaud has made an exceptional ski. Thank you!

# STORY

In the heart of craftsmanship, AT- SKIS is based on an ethics as traditional as it is modern. Our skis are unique pieces of French manufacture. It is made with an ash wood nucleus, carefully chosen in the Jura Massif, sliced veneers from the Tarentaise Valley, flax fibre and carbon for an excellent resistance on snow. Finally, a piece of cow horn finished the back of the ski. The result ? A perfectly balanced structure for skiing with pleasure, stability and precision!

# OUR RANGES

## **ALL MOUNTAIN (LE JOVET)**

Available sizes: 174, 178, 190 cm DNA:

Comfortable skiing everywhere!

Ideal for skiers who play on all terrains during a day or for Freeride only.

## **ON-PISTE (LES ASTERS)**
